

## Responsible Visitor Charter

Help us to be a 'green hotel' by being a responsible visitor.

Below are things you can do to help Holiday Inn Stevenage team work towards reducing our CO2 emissions and helping save the planet.

### **Conserve Energy**

Reduce energy by turning off the lights and removing your key card before leaving your room. Please ensure the window is closed if your air-conditioning system is on.

### **Be Water Wise**

Please use water wisely; turn off the tap when brushing your teeth and use the glass provided. Help us by using our towel exchange system; information found on the Green Foot shaped collateral in your room.

### **Recycle**

Please recycle your Inkjet Cartridges in the box provided by reception; this scheme also donates £1 to the Guide Dogs for the Blind per cartridge. You can even bring them from home and drop them in the box on your next visit.

### **Reduce**

Please use our 'bag it and bin it' campaign; this is an industry-led national campaign to encourage people not to flush their discarded personal products down the toilet e.g. cotton buds, razor blades etc.

### **Respect Nature**

Help us to look after the landscape and wildlife by not littering the area. Please use the bins and cigarette ashtrays provided at the front of the hotel and smoking areas.

Most importantly, have a great time when you are here and we'll see you again soon.

If you have any other ideas on how we could become a 'greener hotel'

please email them to Donna Fionda HR Manager

at [hr@histevenage.com](mailto:hr@histevenage.com)

Thank you from Holiday Inn Stevenage team
